Ayer's Sarsaparilla

effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of stil greater alterative power as to afford an effec tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from strumous complaints, and that one which will a complish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following

SCROPULA AND SCROPULOUS COMPLAINTS ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM. SCALD HEAD, SYPHILIS AND SYPHILITIC AT-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILPTY, DYS-PEPSIA AND INDIGESTION, ERYSPEEAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcarous sores, through which the system will strive to rid liself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the itiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later somethin must go wrong, and the great machinery o life is disordered or overthrown.

Sarsaparilla has, and deserves much, th reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, ontain but little of the virtue of Sarsaparilla or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment as followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for clieving it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions of

[From the New York Times, July 2.] The Press and the Secretary of War THE WAR DEPARTMENT - AN INQUIRY WANTED.

that the public universally regards the adminis-tration of the War Department as surrounded with corrupt influences. Contracts have notoriously been made in disregard of all the usual dictates of produce and economy. Transports have been hired at monthly rates double the entire value of the vessels; arms and munitions have been bought at prices which would cease have been bought at prices which would cease to seem excessive when we learn that one fourth the cost passed into the pocket of the purchasing agent; the most worthless of trash has been received from favorites, and paid for as if fully up to the contract requirements; and in every transaction connected with the warlike preparations of the Government there has been the taint of peculation and dishonesty. For these phenomena the Chief of the War Department is popularly regarded as responsible, and, at all events, upon him will rest the responsibility of disproving them.

A popular impression, extremely unfavorable to the Chief of the Department, has been created by the obvious swindling and plundering to which we have alluded. If, as we desire to believe, and demand to have proved, if true, Mr. Cameron is no party to these shameful transactions, and is unaware of their existence, the Administration is suffering to a degree which may be fatal

its honest expenditure. The extraordinary powers confided to the Executive must not be abused. The suspicion that the national enthusiasm is employed by bad and reckless men for self-aggrandizement must be removed. Until certainty is attained upon these points, it is safe wound in the breast. Colonel Magruder in can be placed upon a continuance of the great

Moody being a Union man, was distrusted by his neighbors, and was about to relinquish his warrant, which had been issued by the War Department for three years, when the officers of the Fort urged him to remain, and that the Government would unquestionabl extend to the Union men in Virginia who might suffer for their principles, every possible aid and support. He decided to remain; his family, meantime, was driven from their residence, bl property seized, and he forbidden to return .-He has since heard nothing from or of his family, but has been devoting himself, with great zeal and assiduity, to the duties of his

Some eight or ten days since, Mr. Wistar, o Pennsylvania, made his appearance, either in person or by an agent of the Fortress, with a HUNNEWELL'S written request from the Secretary of War, that he might be appointed Sutler in the place of Mr. Moody. A Council of Administration was at once convened. Mr. Moody was found to have received his appointment for the fixed term of three years; no pretense was made in any quarter that he had not performed the du-ties of his office with perfect fidelity, and to Leaves Columbus 2.15 P. one change of Care.

By this Train Passengers arrive in New York five hours in advance of the Northern lines.

This Train also connects at Bellaire with the Batthnore and Ohlo R. R. There are two or three points involved in this matter which make it one of much graver importance than it would first appear. In the first place, the regular army officers regard it as an attempt on the part of the Secretary of War utterly to override the regulations and uniform practice of the army, for no other reason than to make a place for a political and persona favorite, and create opportunities for other per sonal and partisan adherents to make large profits by furnishing such supplies as the Sutler may require. The rumors of the garrison name three or four such persons, who are known to have been very active in bringing about this change, and to have large investments, and still larger expectations, in the way of supplies The regular officers regard this as only one in The regular officers regard this as only one incident in a systematic crusade against their rights, by which the discipline, order and efficiency of the military force of the country is to be sacrificed remorselessly to the greed of political partisans. I am inclined to fear that, if this matter is pushed and this appointment of Wistar is insisted on by Mr. Cameron, it will lead to year calculations results in account to the lead to very calamitous results in regard to the efficiency of the garrison at this Fortress.

It is stated that the President has altered the

army regulations in this respect, so as to give the appointment of sutlers to the Secretary of War, instead of the Council of Administration. The reason assigned is, that the post has now become much more lucrative, and therefore much more important. Unless, however, I am much more important. Unless, however, I am greatly mistaken, the public will regard this as a conclusive reason for leaving the appointment in the hands of the Military Council. If Mr. Cameron were as careful of his reputation and personal honor as one in his position should be, he would not make such a change in the army regulations as will simply place in his hands patronage and the power of disbursing money, which can be much more usefully exercised where it now is. Upon one thing he and the Administration may rely:—if this change is carried out, and Mr. Cameron's

The Ohio Statesman friend is appointed sutler at this post in place of Mr. Moody, he cannot possibly satisfy the public that it is not done from motives which will not bear examination. If the Secretary is wise, either for himself or for the Administration which is responsible for his acts, he will spring avoid the comments which such an act will cer-

tainly provoke.

Col. Segar, I understand, has gone to Washington to-night, to make representations to the Department on this subject. I shall do no more THE WAR DEPARTMENT — AN INQUISY WANTED.
